

Remarks:

1. Newly amended claims 35-42 as a complete claim list are added.
2. The matter in the new claim 35 is the same as the matter in the original claim 1. There is no new matter introduced.
3. The matter in the new claim 36 is the same as the matter in the original claim 2.
4. The matter in the new claim 37 is the same as the matter in the original claim 3 except deleting "or has" from the original claim 3. There is new matter introduced.
5. The matter in the new claim 38 is the same as the matter in the original claim 4 except deleting "or has" from the original claim. There is new matter introduced.
6. The matter in the new claim 39 is the same as the matter in the original claim 5.
7. The matter in the new claim 40 is the same as the matter in the original claim 6.
8. The matter in the new claim 41 is the same as the matter in the original claim 8.
9. The matter in the new claim 42 is the same as the matter in the original claim 9. There is no new matter introduced.

This novel invention is based on the pressed or expanded function of the special protectors and the current holders on a vehicle body for protecting vehicle license plates from being stolen.

Respectfully submitted,

By
